

BUSINESS PHONE LINES

Formally UPC Business, we have over 15 years' experience in the communications industry and are one of the largest business to business communications service providers in Ireland.

We offer a comprehensive suite of voice products and bespoke rate plans based on your traffic needs across all our voice solutions. Plus, thanks to our carrier pre-select and wholesale line rentals if you are not on our Network it's not a problem, everyone can avail of our great services and save.

BUSINESS PHONE LINES

Our directly connected telephone solutions use our Fibre rich, wholly owned and managed network to connect to our carrier grade voice switches.

Primary Rate/ISDN

Carried across our fully managed TDM network, these services are provided directly on a dedicated Fibre pair and presented on a fully managed (TDM) CPE. Resiliency options can also be offered.

Multiple lines which can be used for incoming or outgoing calls. Primary rate (30 channels) or fractional rate (15 channels) available.

WLR/CPS

We provide voice services regardless of your location in Ireland. This service uses your existing phone lines to provide you with a quality service at competitive rates without the physical connection.

We can bill your calls and lines all on one bill, making us the single point of contact for your telephone needs and as there is no physical connection, there are no setup charges.

SIP TRUNKING

Carried across our Metro Ethernet or Carrier Ethernet network, we provide a quality SIP product on dedicated Fibre to a fully managed CPE. As above multiple options for diversity with Public SIP also available.

Features of Business Phone Lines:

You can also add all these great features to your business telephone lines to help you keep in touch:

- ✓ Out of the office? Don't miss a call, just divert it from your landline to another number, like your mobile.
- ✓ Call waiting – will beep to tell you when another caller is trying to get through.
- ✓ Reminder call – you set it, we'll never forget it.
- ✓ Caller display – if your phone has a display, we'll show you the caller's number before you answer. Great for prioritising your time.
- ✓ Call barring – block certain types of outgoing calls, such as premium rate services, international calls or even mobiles.

- ✓ Withhold number – keep your number hidden. You can set it to hide it permanently as standard or decide to withhold on a call-by-call basis.
